

Industrial Refrigeration Freezes Inefficiency with *ECMNOW!*

As a refrigeration company that specializes in commercial and industrial refrigeration, Industrial Refrigeration Services, Inc. had approximately 2,000 monthly invoices to deal with. Once they implemented *ECMNOW!* in conjunction with their Panasonic scanner, they were able to get all of their documents under control. Now they use it for all of their important paperwork, not just their invoices.

- Recovered **500 hours per year** in AP processing time
- **Protect 100% of invoices** and other documents from loss, theft, or damage
- **Save nearly \$10,000 a year** in AP processing costs alone
- Implemented and trained staff quickly: **“Training was nothing.”**

“We use ImageSilo® (rebranded as RADIX by Imagetek) for just about anything you can imagine: AP processing, bank statements, truck manifests, and anything else we would need to keep a paper copy of. We’re on our way to being completely paperless. PaperVision® Capture and the Panasonic scanner make the setup pretty slick.”

-Pat Myers, Accounts Payable/Receptionist
