

# The Forecast is Cloudy

“The world’s data volume will grow from 33ZB in 2018 to 175ZB by 2025” -IDC, 2018

The cloud opportunity is growing!

“The worldwide public cloud service market will grow from \$182.4B in 2018 to \$331.2B in 2022.”  
- Gartner, 2019

83%

of all workloads are expected to be in the cloud by 2020.  
- LogicMonitor, 2019

## Why are businesses moving to the cloud?

52%

of organizations experience better security in the cloud than on-premise environments.  
- McAfee, 2019

Improve security

Lower costs

Increase productivity

87%

of companies experience business process acceleration by using cloud services.  
- McAfee, 2019

“The financial benefits of moving to the cloud are clear – as are the security and reliability benefits. With cloud delivering 3.2 times the ROI of on-premise applications with lower initial and ongoing costs, and the environmental benefits, it’s hard to argue against.”  
-Rebecca Wetteman, Nucleus Research

## Getting in the cloud biz is easy!

By selling ImageSilo®, you can:

Shorten sales cycles with simple implementations that require minimal IT expertise.

Implement in any industry and target any size customer.

Grow profits and stabilize cash flow with recurring revenue.

Easily add process automation tools that help streamline tasks.

“We attribute 100% of our sales growth to the PaperVision® product suite. ImageSilo is the keystone of our cash flow, which is a lot less stressful. We are protected by the stability and control of recurring revenue, which allows us to offer extraordinary customer service to our clients.”

- Bruce Rector, Owner and President, MuniMetriX

## Ready to Grow Your Business with the Cloud?

With ImageSilo, you can start selling cloud today with a low cost of entry and grow your business with recurring revenue.
